

THE DEFINITIVE GUIDE TO CONCRETE REPAIRERS

The Concrete Repair Association (CRA) has just updated and re-designed the 2006 edition of its handy and informative Members Directory, which is specifically intended to be of practical, every-day use to Clients, Specifiers, Consultants, Surveyors and Local Authorities.

The latest edition includes updated information on all of the CRA's thirty-nine member companies that comprise the majority of the UK's established specialist contractors, product manufacturers and distributors involved in the business of concrete repair and allied activities. Since the Directory was last published, CRA membership has risen by almost 20%.

The 62-page pocket-sized booklet gives information on each Member Company, its head and regional office locations, web site, email details and the names of primary contacts. A description of the company's specialist concrete repair activities (in the case of manufacturers - its products) and third party accreditations are also included. To assist selection when compiling tender lists for concrete repair work, each contractor's entry includes details of contract values catered for, the company's largest contract to date, its total turnover, the value of its concrete repair related business and its geographical area of operation.

The Directory contains details of the Association's technical helpline; its NVQ/CSCS related training scheme and Codes of Practice. It also provides information concerning the Association's free CD-ROM, which contains audio-visual programmes on 'The route to a successful concrete repair' and 'Structural strengthening with composites', as well as other useful literature, a bibliography of allied documents and a list of closely related organisations.

Copies of the 2006 CRA Directory can be obtained free of charge from the Secretary, Concrete Repair Association, Association House, 99 West Street, Farnham, Surrey GU9 7EN. Tel: (01252) 739145. Fax: (01252) 739140. Email: cra@associationhouse.org.uk Website: www.cra.org.uk
